

Mission Waco C-19+ and Exposure Protocol: FOR VOLUNTEERS

Current as of 8/18/2020

Subject to change

IMMEDIATELY CONTACT: the Program Director where you volunteer **AND** volunteers@missionwaco.org

NEXT STEP: Submit completed "INITIAL INFO" form to volunteers@missionwaco.org.

Case 3

Volunteer has close contact with individual awaiting test results (eg household member):

Volunteer begins self-quarantine until results come in. If household member tests positive, continue self-quarantine for 14 days. If household member tests negative, volunteer can return to normal shifts.

Close contact is defined as:

1. Being 6 feet or less from someone for greater than 15 min OR
2. Being directly coughed or sneezed on by that person

Symptoms as of 8/13/2020

- Fever (>100.4) or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

PROGRAM CONTACT INFO:

Director: _____

Email: _____

Phone: _____

Case 1

Volunteer has close contact with C-19 infected individual

Is volunteer symptomatic?

Yes

Case 2

Volunteer displays symptoms concerning C-19 Infection

Calls/visits medical provider and informs program director immediately

No

Patient diagnosed with C-19 clinically "COVID like illness" (CLI)

Positive

If C-19 diagnosed or CLI then proceed

Isolation and C-19 management with PCP (primary care physician)

*Unless volunteer has had "close contact" with C-19 infected individual; then back to Case 1.

14 Day self-quarantine:

Ends 14 days after close contact exposure unless otherwise specified by DSHS.

If Volunteer develops symptoms during 14 day quarantine proceed to Case 2 above.

Even if you test negative, you must complete the 14-day self-quarantine.

Negative

C-19 diagnosis thought to be unlikely, volunteer not tested

Was there a clinical diagnosis of C-19 despite negative test?

Yes

No

Can return* with "Self-Certification" Form AND Vol. Director approval
